Define Problem Statements (Customer Problem Statement Template):

Create problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A development economist trying to quickly compare HDI tiers across countries.	Assess and rank a country's human development level.	Manual data collection and calculation from UNDP / World Bank sources is slow and error-prone.	No quick, interactive tool exists that takes these indicators and instantly predicts the HDI category.	Frustrated and slowed down, since timely policy decisions need fast, reliable insight.
